

# Presidio Bay Real Estate Development Scholarship

SPONSORSHIP OVERVIEW

[www.pbvscholarship.com](http://www.pbvscholarship.com)

## JOIN US TO MAKE A DIFFERENCE IN OUR COMMUNITY

**WHAT** The Real Estate Development Scholarship was designed by Presidio Bay to provide entrepreneurial high school and college students an in-depth dive into the career paths and opportunities available within the real estate development. At the end of the program, the winning team of students will be awarded a \$5,000 academic scholarship, in addition to other individual prizes to support their ongoing education and career efforts. Students are also paid a \$3,000 stipend for their participation.

**WHY** Presidio Bay recognizes that the real estate development industry currently lacks sufficient diversity, particularly in the Bay Area. Through a holistic approach of education, mentorship, and long-term relationship building, we hope to instill the inspiration and confidence among our students that they can also have a seat at the table in shaping our communities for future generations.

**WHO** The program's unique curriculum also brings together market-leading experts in the fields of finance, brokerage, architecture, construction, land use, community organization and city planning, with a vision to add more disciplines as the program continues to grow.

**HOW** Over a 10-week period, this comprehensive program will take students through the complex process and considerations involved in envisioning and designing a new building, plus discuss and simulate the collaboration and understanding required to build it.

**HOW YOU FIT IN** Presidio Bay's Real Estate Development Scholarship program is a perfect opportunity for you and your organization to have an immediate and meaningful impact in our industry and our community. Your financial contributions will directly support the scholarships and resources that our students will need as they navigate their educational and professional endeavors in the coming years, while your mentorship and time will build bonds that will last a lifetime. We are currently accepting financial contributions and speaking opportunities for the 2023 Summer Program, as well as interest in participation as a key stakeholder in 2023.

## SPONSORSHIP BENEFITS

- A FUN, MEANINGFUL WAY TO GIVE BACK

## SCHOLARSHIP SUPPORT

We welcome all levels of donation and for our larger sponsors, we have created three distinguished levels of financial support that will receive formal acknowledgment on our website and other marketing collateral. If you would like to provide other means of support for the program, such as classroom space, in-person tours, interactive sessions and more, please reach out to us directly at [scholarship@presidiobay.com](mailto:scholarship@presidiobay.com)

	THE GRADUATE	THE SALUTORIAN	THE VALEDICTORIAN
<b>DONATION AMOUNT*</b>	\$3,000	\$5,000	\$15,000
<b>SPONSORSHIP</b>	Sponsors one student stipend for program participation.	Sponsors one student on the winning team.	Sponsors the winning team of three students at \$5,000 each.

*\* All funds earmarked for future scholarship payments will be held under a 501(c)3 entity managed by Presidio Bay Ventures, and only released to students upon meeting the terms and conditions of the Scholarship.*

## SPEAKER AND MENTORSHIP SUPPORT

The program runs for 10 weeks each summer starting in June and ending in mid-August. Volunteers help us with various portions of the program, as detailed below. If you are interested in getting involved, please contact us with any questions at [scholarship@presidiobay.com](mailto:scholarship@presidiobay.com)

<b>STAKEHOLDER OPPORTUNITIES</b>	The program identifies participants in the development process as ‘Stakeholders.’ As a stakeholder, you would represent your industry by becoming part of the core curriculum. The commitment includes 6 preplanning meetings in March, April and May then several meetings during June, July and August to teach, guide and participate as final judges in the selection of the final winner at the end of the year.
<b>SPEAKING OPPORTUNITIES</b>	The programming is currently tailored for topics that are directly covered by the stakeholder positions (development, architecture, brokerage, construction, community advocacy, policy, land use and city planning) as well as broader fields including, but not limited to, sustainability, engineering, technology, infrastructure, VR/AR, and other related disciplines that showcase the broad range of career pathways that impact real estate and community development.
<b>MENTORSHIP OPPORTUNITIES</b>	As a program Mentor, you would be utilized as much or little as you are able through the calendar year to support organizational and in-classroom events and meetings.
